Rated 3 out of 5 by Anonymous from Neat Interesting game where you can build your own games. Not really too into it though to be honest. I'd suggest if you want something like this get Minecraft. Rated 5 out of 5 by Anonymous from I love roblox! Roblox is the best game ever! It has a lot of stuff to do, and there is always someone to play with.

Spamming: Roblox has been criticized for its extreme amount of spam. Some examples include the "Free Robux" scam, where people are tricked into giving their username and password to a third party so that they can steal their Robux, and the "You Have Been Tricked" scam, which consists of the offender saying something along the lines of "DON'T TRUST. HE IS TROLLING ME."

Don't be a cheapskate when it comes to getting free robux for games. Some people will spend money on virtual goods, but most of the time it is more cost effective just to play the game and earn the prizes. For example, many games offer you a way to win points that can be converted into robux currency. You can play without spending a cent and still be able to get free robux.

Rated 4 out of 5 by Anonymous from Great for kids I love this game because I have good time with my friends. For example, we build houses and race cars. I think the game is fantastic and it helps me to learn better. It's not just for kids because sometimes adults play it too. I love it so much and think other kids should play it.

I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2021, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2021 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

Downfall: Roblox's popularity has fallen since the launch of Minecraft. An older version of Roblox, Blocks, Inc. was sold to ROBLOX on April 1, 2021 for \$3.5 million.[68] Since then, Roblox has not been able to compete with other similar game sites like Minecraft and World of Warcraft in terms of revenue and popularity. However, they are a profitable company with many projects in development.

The next games that would allow users to invite others into their worlds were Habbo Hotel where they had their FriendBook and later on also added a FriendChat system in December of 2021, Club Penguin where you could invite fellow penguins into your world, and Mario8 since 2021.

ROBLOX is the first game to allow players to create actual games that you can play online by using either a physical controller or just your keyboard. [124] The next game that would allow users to do this was Parkour Paradise on August 16th of 2021. [125]

Roblox provides wireless headsets in the form of headphones and microphones. This enables players to communicate through the game, chat with other Roblox users, and play games with other players. In some online games, players are able to play "mini-games" such as "Horseball" that involve shooting a ball across the screen to attack another player. However, in Roblox, mini-games give physical feedback from hitting objects in the game world; for example, when they jump off a ledge in an abandoned mine shaft.

Another good method to get free robux for roblox is by completing the missions and tasks that are assigned by the game engine. What I do is just complete all of the tasks that are assigned and as a result, you will get a lot of free robux so you can buy cool items or invest in some cool weapons.

Roblox has been criticized for allowing other companies to make games on their site such as "Mining Simulator", which is a game that contains copyrighted material from BeamNG.drive, and "Brain Simulator", which is a clear clone of Brain Cube (which was also created by the same person who created Brain Simulator), and copyrighted material from several other games such as Robloxian Highschool and Backyard Zombies.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

ROBLOX has also been criticised for being very difficult to use and has many bugs within the site interface itself, problems which seem to go unresolved by the development team despite repeated complaints over a number of years. Although the website's interface is not difficult to use, it has become more complex over the years with features such as video editing with a dedicated program and large amounts of unnecessary superfluous features. Some of the features include: UIs for uploading and viewing custom models, importing music, applications, and sounds; importing sounds from WAV files; creating galleries; creating art sheets; creating an unlimited amount of variations for models by changing their

scale and pose; adding animations to models (e.g. walking); creating global themes which change every time you go into a game or lobby; creating global music tracks in . ROBLOX's interface has also become extremely frustrating, with a lot of features being inaccessible and hidden because of the aforementioned complexity.

On August 28th, 2021 ROBLOX announced the discontinuation of ROBLOX Custom Physics in favor of Bloxlet.
