On July 27th, 2021, ROBLOX announced that they were going to be having an "open beta" of a new in-game currency system that would allow users to buy and sell virtual currency. This feature was added to the site in 2021, but this was the first time that it was open to everyone. This new system came with a "Queueing" system similar to YouTube's order form, which many game creators saw as useful in saving time from waiting for transactions manually. Users can still trade with each other if they wish to do so.[23]

Chris Hutchins, the Vice President of Developer Relations at Roblox, has said that Roblox is hiring. The current number of users that have worked for Roblox is 17,000 and they hire about 400 employees each year.

ROBLOX announced the launch of an app called ROBLOX Studio in July 2021, which allows players to make 3D videogames using ROBLOX Soft, or Lua scripting. These games can be shared on the website and with friends via social networking and email, making the virtual world even more alive than ever before. The app is free, but users must pay for revenue sharing of their games. On January 30, 2021 ROBLOX released its first app exclusively for iOS devices called "ROBLOX Studio" which puts a lot of its features into a more user-friendly format that previously had to be accessed through two separate products.

According to a report by "The Guardian", Roblox has been criticized for being a "digital playground" that involves more than 50% of their users under the age of 18. The report states that there are over 200 million players on Roblox who have access to weapons and themes that include sexual references and violence. They also said that Roblox emphasizes the idea of user privacy which can be seen in their games by having players invite other users via email or text messages.

Not only that, but since "Robloxian life" lasts so long, many players have to pay to charge their battery or buy power packs and if players don't have enough money to spend, they can lose interest.

Frequent updates. Roblox has a very dedicated and professional team of developers, who frequently update the game with fresh content, new games and bug fixes. This means that even though roblox is 7 years old, it feels fresh and new every time there is an update - a major plus for any game.

I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

The currency was named after ROBLOX's mascot. All games and item purchases could only be made with Robux. The overall value of Robux is dependent on ROBUX exchange rates in the game itself; however, all players are guaranteed to receive the same amount of Robux (at the same time) regardless of their financial situation or how they choose to use them.
