I guess the only reason I still play Roblox is because it's a free game and that I don't have to pay for anything. After all, what's the point of saving up your money if you have to spend it all just to try and get on a game you really want to play? There are many games out there that aren't free like Minecraft, but at least they give you some sort of advantage. For example, Minecraft gives you tools which can help you dig more efficiently and quickly. But Roblox doesn't provide any sort of help or assistance towards the gameplay itself. And it's not like Minecraft was designed with children in mind; it was created for adults.

I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game! I am writing about Roblox today because I am fairly new to the game and am trying to get used to it.
